## ABOUT EMPIRE

Empire, designed with Hydro Tec's signature Darwin aesthetics and CdM's unique technical approach, is a testament to superior construction and design. The yacht's project has been developed for long voyages also in high-latitude regions, so it includes an 'ice belt' at the waterline and reinforced hull and rudders for icy conditions. According to Owner's requests, the hull has been partially built with bulletproof steel plates, reflecting his intention to navigate remote and challenging seas. Another unique feature is a fourth pilot station in the engine room. The interiors, designed by Alessandro Massari to the owner's specifications for guest accommodations and style, radiates a sober, understated elegance. The designer created a warm, inviting ambiance by blending custom-made furniture...
