ABOUT 2024 DUFOUR CATAMARANS 48

This is a custom built luxury 48 foot catamaran, available spring 2025. We can still change the configuration, which is currently set for 5 cabins. It could also be an owners version with 3 cabins if purchased soon. This is not your average "production boat". The quality level is very high. Cushions, countertops and wood are custom and chosen by the owner. Dufour 48 Catamaran presents a perfect balance with the deck plan, the cockpit space, roof and foredeck divided into 1/3 of the total length. The large proportion of the roof differs from the models of the category and offer the thought of a very wide space of the living room area. Indeed, it is a testimony of a balanced project in terms of exterior and interior space, developed to offer the greatest comfort in all seasons.
