## ABOUT STELLAREXP37-M

The EXP37-M's power catamaran hull delivers superb fuel efficiency and maximum stability. For those that use their yachts to venture further afield into more remote locations the storage on board and redundant systems on all critical machinery combined with a Northern European superyacht quality interior offers the reassurance and comfort that are essential for long periods at sea. This is a supremely safe and substantial explorer yacht constructed to Lloyd's Register +100A1 SSC, Yacht, Mono, G6 with naval architecture from Ginton Naval Architects of The Netherlands.
