Overview

Introduction:

STAE is a 2017 Sanlorenzo SL86 which is currently located here in Fort Lauderdale, Florida. She sleeps 8 guests in 4 cabins + 4 crew in separate accommodations. She is a Euro specifications yacht & is UK flagged with VAT PAID

The Sanlorenzo SL86 has timeless elegant lines one has come to expect from the Italian Shipyard. Subtle sophistications combined with innovative changes which are the culmination of decades of experience. For example instead of a retractable canvas sunroof on the sundeck which always tend to break and get dirty, the SL86 have electric blades that open the roof. This blends in with the bicolor superstructure and is just an overall better design. Small details like this that keep Sanlorenzo at the forefront of this segment of the market.

Each Sanlorenzo is uniquely their own combining over 60 years of experience building tailor-made motor yachts, artisan creations that eco Italian styling. The state of the art facilities located in La Spezia & Viareggio, Italy has really transformed the market having introduced a product that was uniquely their own, uniquely Sanlorenzo. Classic timeless designs that outlive trends that you tend to see some other builders producing.

STAE features an almost minimalistic art deco décor highlighted by natural colors, satin finished woods, and large windows creating an almost zen like interior feeling. Owners & guests have no choice but to feel relaxed when on the sea.

Machine Spaces:

STAE features twin MTU 12V2000 series M94 engines with low hours giving her a top speed right around 30 knots and fast cruise speed 20 knots. STAE features a full options back from the stern thruster to Raymarine GOLD package, Apple TV throughout on Samsung LED tvs, Satellite SEATEL, Crestron

Two Onan generators, the main generator is a 27kw and the other night generator is a 22.5kw.

STAE features at anchor zero speed stabilizers giving her a comfortable ride, and 105,000 BTU of tropical air-conditioning assure you are comfortable inside as well.

A substantial Williams 385 jet tender is kept on the hydraulic swim platform with a Yamaha EX Deluxe jet ski in the garage which are both included in the sale.

Walk through:

Starting our walk through on the aft deck first you notice the teak decks that continue throughout the entire exterior of the boat. You have a built in settee, centerline satin finished teak table which is the first of three dining areas onboard. You can comfortably seat 8-10 guests. Full walk arounds continue to the bow both on the port & starboard sides.

The bow features a large sitting area with a high/low table that lowers to create one massive sunpad great for lounging.

Back on the aft deck we step through large sliding glass doors that tuck away to combine both spaces you enter the main salon. To starboard you have a built in L-shaped settee and opposite you have a 55" tv that slides out from behind the books case which I love and built in storage. Love the combination of satin finished woods, white couch and pops of color from the accent pillows, chair & ottoman.

Forward of the sitting area you have your formal dining area to starboard and to port the stairs that lead down to the guest accommodations, and another set of stairs that lead up the flybridge which has a large hard top, center line dining space with additional storage to port and full wet bar to starboard including sink, ice maker, grill and refrigerator. All the way back aft is an open space great for relaxing and sunbathing.

Back down to the main deck and continuing forward from the dining area to starboard you have your galley highlighted with stainless

steel Gaganeau & LG professional appliance. Large window adds great natural light. Opposite the galley is your day head to port.

Just forward from here you have your main helm station located to port with built in sitting area to starboard. Her bridge features a Raymarine GOLD package with 3 flush mounted glass monitors. Centerline you have your passage that leads down to the crew accommodations that features two bunk rooms which share an en-suite. All bathrooms onboard feature Tecma toilets & bidets.

We will now head down to the lower deck where you will find the master cabin + 3 guest accommodations. All the way back aft is the full beam master cabin highlighted by an offset king berth. To starboard is the master bath featuring his & her sinks and shower in a beautiful custom stone & private toilet. The entire bath area can be closed off by two privacy doors. Forward of the bed is a large walk in wardrobe and tv hidden as a mirrored wall when not in use. A vanity also compliments the space.

Moving forward to starboard is guest cabin featuring 2 single beds that push together to form a queen berth. Back aft is the en-suite complete with the same amazing stonework found in the master cabin.

Continuing forward to port is the same size cabin with a slightly different layout, two single berths that combine to form a queen with private en-suite.

All the way forward is the VIP cabin that features an inboard facing queen berth with en-suite located towards the bow. Opposite of the berth is a mirrored wall that hides a tv when not in use. Additional storage is below the berth as well as a large hanging locker.

From the crew accommodations to the common spaces, her timeless design & sophisticated décor – its these details that solidify the Sanlorenzo SL86 as an industry leader not just today but for years to come.
