SARPYACHTS

## True quality.

Easy words to say, but few stand in their own truth when they speak them, because true quality is demanding. It calls for the purest principles, the deepest commitments and only the truly dedicated will ever measure up.

But it's worth the search if you can find the road. There are subtle landmarks along the way and a discovery that drives you forward, and when you find true quality, it'll stop you in your tracks.

A supremely crafted superyacht is an unforgettable discovery, and it also tells a story. A story of absolute precision, trusted engineering, the finest materials and beautiful spaces, designed to be shared. Ultimately it's a story of those who built the yacht and their deep seated passion and determination to craft perfection.

When this comes to life in an exceptional superyacht, you can be sure you've uncovered true quality. Yours, to enjoy and a story to continue.

*Sarp Yachts, the quality life deserves.*

At Sarp Yachts we take the long road to quality investing the time, refining the detail, gathering the best around us and expecting the best of ourselves.

We believe when you craft things of beauty to create experiences to last, there's no other way to achieve it.

Our expert, in-house team ensured we achieved three certificates of Quality Evaluations from the American Bureau of Shipping We make sure the company we keep is both talented and respected, working with industry experts.

Our philosophy and attitude underpin the way we work with deep-seated passion and determination to craft perfection.

EMRE SANDAN, Shipyard Manager

## Our Family Foundation Keeps It Personal.

Sarp Yachts is proudly owned by the Kanatlı family. The family also owns the ETI Group Companies making Eti and Sarp Group Companies two of the most influential and innovative entities in Turkey. Together, they lead the way in a spectrum of business categories including aeronautics, logistics, insurance, food and marine industry, with more than 10,000 employees. They are significant organisations, but collaboration with partners and clients is the key to the way we work – we will always keep it personal.

# State Of The Art Shipyard

Sarp Yachts has founded one of the largest (10,000 m<sup>2</sup>) and most modern facilities in the Free Zone of Antalya in South Turkey. It's specifically designed for the new construction and refit of luxury motor and sailing yachts up to 80m in length.

perfect harmony of simplicity and style

## XSR SERIES

105 • 85 • 125

Silence is the keynote where pleasure enters.

*In light of our environmentally friendly vision and high level engineering background, Sarp Yachts proudly present its brand new concept yacht family.*

*You have chance to dive into the world of harmony and enjoy the beauty of unharmed nature. Trace back to the beginning, a place you came from and where you truly belong. Do not abandon you family, comfort and safety while living your dream. Lose yourself in an enchanted journey living all the rest to us. The yacht's design is fully inspired by Mother Nature. Sense of exploration has never been so compatible with nature, comfort and luxury at a time.*

### Hull Design

Van Oossanen developed the patented 'Fast Displacement Hull Form' or FDHF. The development of this concept was triggered by the desire to develop a hull form that is efficient over the entire speed range and not only in a restricted speed interval around the maximum speed. Other benefits include significantly increased comfort on-board with better sea keeping and wave reduction. Particularly when compared to hard chine vessels, the FDHF showed improved sea keeping behaviour and manoeuvrability, as well as a reduced sensitivity to an increase in the weight of the vessel.

**XJR85** is designed respectful of nature. The key element of the design is the glass arrangement which surrounds the entire salon, giving great lightness and visibility from the inside-out. The use of extensive integrated glass gives the architectural touch to the design for the owner's freedom and flexibility with the unique open-deck feeling.

Interior

XJR 85 interior design aims to give guests a sense of openness. We want you to feel yourself on a remote island, your own island, forgetting that you are on a boat. You will merge with nature the very moment you open the windows. This feeling of freedom and openness has been further enhanced by lifting the inferior wall between the salon and the galley. It is possible to chat with your friend who is preparing a snack for you while you are sipping your drink.

When you descend down the sculptural stairs an unexpectedly large lounge area appears in front of you. Designed with an innovative approach, the lounge provides guests with a complete comfort by turning into a cabin if necessary. A single vertical axis is designed to minimize volume loss and to maximize the interior-exterior relationship.

The staircase, inspired by trees, connects the entire yacht. The unique design with organic lines creates an impression of the yacht as a work of art. The kitchenette area, located just below the staircase, offers you a morning coffee or delightful drink to enjoy while watching a movie in the lounge.

Aft of the lower deck is dedicated to the master cabin. A full beam cabin is beyond all expectations. Meticulously designed furniture, inspired by nature, imitates world's unique elements. The bathroom is integrated with the cabin to maintain more space without compromising privacy.

A full-beam VIP cabin is located at the forward lower deck with separate bathroom area. The vanity top on the hull side and the glass wall with TV behind give the guests maximum comfort and luxury.
