## About

---

**DOPAMINE is a highly customized 33 Gran Sport that shows in better-than-new condition thanks to a full-time crew of 6.**

Stepping onboard DOPAMINE you immediately recognize that she was built for an experienced, knowledgeable owner who has customized her into a work of art. As you continue through this brochure you will notice the long list of upgrades and modifications found onboard DOPAMINE that set her apart from not only from other Mangusta 33 Gran Sports, but any other yacht in this class currently on the market.

## Key features

---

**1,000 original hours with her IPS under extended warranty**

---

**Sleeps 10 guests in 5 cabins including a spacious on-deck master**

---

**innovating jacuzzi on the bow with extensive lounge area**

---

**Substantial tender garage back aft that can house a Williams 550 jet tender or 2 full size jet skis + additional water sports toys.**

---

# DOPAMINE

---

## Overview

---

It's the attention to detail on small items that would typically go unnoticed.

Like how the stabilizers have been silenced to assure that the interior of the yacht remains as quiet as possible when they are engaged, or how they increased the diameter of the water intake so that you can fill or empty the jacuzzi as fast as possible assuring it is available on short notice. Simple things like how the extraction fan in the galley was designed in such a way to avoid condensation thus eliminating the opportunity for mold to form. It was meeting with the technical department at Mangusta to find an acceptable solution with the discharge value so that the galley sink can include a macerator/disposal. The galley also happens to include the largest possible oven that would fit into the space & upgraded it to Gaggenau (which is better for baking bread as per one of the clients comments). The owner has clearly listened to the feedback from his crew on his previous yacht to assure that these small items are address assuring ease of operation during the ownership of 'DOPAMINE.'

DOPAMINE is a US Specification model with shore power converters with just over 1,000hrs on her engines. She features an upgraded A/V systems, Starlink, Upgraded decor package that also incorporated increased headroom on both the main & lower decks which makes a noticeable difference. She is operated with a full-time crew of 6 to assure the yacht is in 'better than new' condition. Seahub, the most user-friendly yacht management software on the market is utilized to assure all maintenance is current and up-to-date.

Her engines have only 1,000+ hours and there is an extended warranty on her IPS. Generator hours are right at 4,700 with all services current. The upgraded decor is absolutely noticeable when compared to other 33 Gran Sports - from the hard wood floors, the marble & onyx stone that was specifically chosen by the client, the leathers, suede wall coverings - it is all intricately laid together with soft blues and earth tones giving a warm & inviting feel.

DOPAMINE has an appealing Bahamas draft below 6' - she has just completed her annual flag & class surveys and is MLC compliant, commercially registered, Marshall Island flagged. DOPAMINE shows in new condition and is truly an excellent opportunity for a client looking to purchase a turn-key yacht.

---

## Walkthrough

---

Walking up the passarelle you arrive at the aft deck which has a centerline U-shaped settee, table and chairs great for dining or lounging. Forward to port is a full-service bar, to starboard stairs that lead up the sundeck. Both to port and starboard you have full walk arounds great for the crew when docking or maneuvering the vessel.

Stepping into the main salon you immediately notice the 7' headroom (found on both the main and lower decks). The sliding doors have very little threshold so easy to step over. Custom hardwood floors highlight the space which is separate into an aft lounge area with L-shaped settee and forward of that the formal dining which is complemented by sliding doors both to port & starboard so when opened create a refreshing cross breeze while dining (or leave them open when at anchor to enjoy the fresh air).

Continuing forward to port you enter the crew party, crew access to the upper wheelhouse & forward to the galley. The layout of the yacht allows the crew to seamlessly travel between decks without interfering or interacting with the guests assuring complete privacy to the owners' party. The galley has large windows and plenty of counter space for chef prep & plating. Appliances are upgraded to a larger Gaggenau oven, vent hood, stovetop and other accessories all chef grade and great for entertaining both large or small parties.

Moving forward on the main deck to starboard you pass the day-head and end at an extremely spacious full beam master cabin complete with massive windows, large wardrobe, shower that was enlarged to fit 2 people and incorporates a steam shower feature, and his & hers heads.

The lower deck consists of 4 cabins with the 2 aft cabins mirroring one another with king-size beds, and the forward 2 are identical both with queen berths that can separate to forward 2 single beds. This option assures you have the proper sleeping arrangement depending on the guests staying onboard.

Crew accommodations which are accessible on the main deck and located forward on the lower level have 2 bunk cabins located forward each with their own en-suite. The aft cabin is the larger captain's cabin so it sleeps 5 - crew mess has a sitting area and appliances.

The final areas to discuss is the sundeck which flows forward to the bow area connected from the port side door combining both spaces into one. The sundeck has a large hardtop with glass skylights, formal dining area, bar, upper helm station and lounge area located back aft covered with a sunshade. The bow area also has sunshades and a large bunny pad, sitting area with table and one of my favorite features onboard is the jacuzzi. When not in use sunpads cover the space leaving a fantastic area to enjoy when blasting around at 26 knots. Love this upper deck - if entertaining a large party you can use the area as if onboard a 50m so it is very well thought out.

Back aft at the transom you have a tender garage that houses a Williams 550 jet tender and storage for watersports toys. Currently DOPAMINE carries 2 brand new jet skis with the tender in storage.

## Manufacturer Description

---

### THE RANGE- Accelerate Your Aspirations

With its aggressive styling and exhilarating speed, the Mangusta Gran Sport range represents the perfect fusion of high performance and long range. Able to voyage over extended distances quickly and comfortable, it allows you to accelerate towards your aspirations - and the time to enjoy them to the fullest.

### THE MODEL- Where Design Meets Technology

The Mangusta Gran Sport 33 is capable of swift speeds and good fuel economy. She harmoniously blends stylish design and technical solutions, a strong personality and timeless elegance, sporty features and comfort, sleek lines and a perfect balance between exteriors and interiors. She expresses Mangusta yachts distinctive en plein air lifestyle to the fullest and allow you to live life at your speed. The essence of excellence.

### THE INTERIOR- Tailored To Meet Your Aspirations

Every Mangusta interior is tailored to the tastes and preferences of our Owners. It takes supreme attention to detail to create a home away from home on the water. By only selecting the finest materials and the most talented craftsmen, we ensure that each interior design is totally unique and customized to fit your aspirations like a glove. Because true comfort is also about feeling comfortable.

### THE LAYOUT- Custom Is Key

A smart interior and exterior layout determines both the comfort of those on board and the efficient operation of the vessel. Mangusta defines the standard general arrangement to ensure maximum enjoyment of guests and proper separation of the crew areas. But custom is key, and Owners are completely free to introduce their own solutions to achieve their ideal yacht.

## Equipment List - Upgrades

---

- MCA (LY4) Compliance with REG Yacht Code - Part A for short range yacht
- Main Deck Fwd Awning System Multiplex with manually installed carbon fiber poles
- Satellite TV System- TV-Sat SeaTel TV 80
- Steam Shower in Owner's Bathroom
- Underwater Lights (10) Ship Control white
- Thermal Camera - FLIR model M364 stabilized IP thermal camera 30 Hz
- Video on Demand System- Server Sealux with internal storage 8 TB RAID mode, with (5) client A/V
- CCTV System with (3) cameras and server storage
- Air Conditioning- Different for upgrade to A/C configuration
- Shore Power Frequency Converter 50kVA- Allows vessel to travel all around the world and connect to any marina shore power supply
- 10 bis Yacht Receptacles Frequency Converter 12kVA- Plugs throughout the vessel are 110 Vac 60Hz systems
- Sundeck Aft Awning System Multiplex with manually installed carbon fiber poles
- Communication Data (Internet) V-Sat SAILOR 600
- Fuel Polishing System Reverso fuel depurator system
- Telephone System VoIP with (6) phones
- Side Boarding Ladder fitted on main deck starboard or portside
- Black and Grey Water Treatment System- Selmar Mod. Blue SEA 2500/Plus compliant with MEPC 227 (64) Marpol and MED 2014/90/EC
- External Volume Controls
- Galley provided with (2) speakers connected to Denon System of the main deck salon (same zone)
- Most of the external speakers are separate in zones or can be played all together including the main saloon. The only two zones that are not separate are the exterior aft deck and the beach area, which are joined together
- SAT TV and Satellite V-SAT System remain as original specification
- CCTV Extra Cameras- (2) on the side main deck and (1) in the engine room
- WiFi Network with multiple access points which properly cover the entire vessel

## Equipment List - Upgrades

---

- Owner's Cabin- Custom Layout
- Shower bulkhead not transparent
- TV pops up from cabinet in front of the shower wall
- Owner's Cabin 55" TV with pop-up
- Vanity desk aft of the bed in front of the wardrobes beside the cabin door
- Maximization of door threshold and ceiling heights for increased clearance on the main deck including the master shower doors
- Guest Accommodations- Wood floors in all the interior guest areas including the galley. Lower deck and main deck including the service pantry are all wood floors
- Port double guest cabin is built with sliding beds but has single queen mattress
- Linen cabinet (with modification) in the lower deck guest lobby has extra washer and dryer
- All the guest mattresses are Magniflex
- Maximum storage under each bed with bed-lifting mechanism, except sliding beds in guest cabins which have drawers
- All the tables indoor and outdoor are of a modern yacht style like Namaste Design
- The transversal credenza cabinet between dining area and lounge area to be used for storage of chinaware and silverware with proper arrangement
- The main deck aft cockpit table incorporates a champagne bucket/bouvette in the middle with a teak lid and drain
- Sun deck area to accommodate frozen drink machine with up and down system
- Main saloon 65" TV with pop-up system and (2) side cabinet- one to be used for an undercounter fridge
- Back lighted onyx slab in fwd saloon wall
- 5-Burner cooktop in galley
- Sink macerator in the galley
- Largest possible oven in galley and most powerful hood for the dimension of the galley. Galley is built and painted including the space for the hood
- Above countertop wine cellar in the galley with top part of the pantry with bottle holders, mirror and glass cabinet
- Industrial ice maker
- Leather sofa with storage inside
- Extra silent HVAC System

- Satellite Decoder

## Auxiliary Specification

---

- STARLINK
- CCTV
  - Axis Camera PTZ P5512E
    - Aft deck ceiling
    - Engine room 1
    - Arch rear view
- Axis Camera P1214E
  - Anchor port
  - Anchor starboard
- THERMAL CAMERA
  - E-NAV ISMART
  - Fixed-mount thermal night vision system assists with steering around obstacles, collision avoidance and finding people in the water at night. Integrated into existing electronics
- CCTV Display and Control Station
  - By Sealux A/V client will be possible to display and control CCTV system
- NETWORK
  - Cisco SG 300-52P, 24 ports 10/100/1000 Mbps
  - 48 PoE ports, 4x SFP, QoS, VLAN
- UNIFI AP
  - WiFi access point
- Peplink Pepwave BR-1 4G Access Router
  - The MAX BR1 offers redundant SIM slots with automatic switching, DC or terminal block power capability, advanced GPS fleet tracking, and remote management, all packed into a durable metal enclosure
- Harbour 2.4 Ghz WiFi Antenna Aigean LINK2
  - The Aigean LINK2 is a lightweight and compact wireless client that features significantly improved signal strength and quality versus traditional mobile devices (laptops, phones, tables, etc.) when connecting to shore-based networks, such as those at marinas, hotels, homes and businesses
- SAT Antenna
  - TV SAT
  - Sea Tel 80 TV World Wide is the smallest new generation Sea Tel TV antenna. It is ideal for installation on vessels where real estate is at a premium. Installation is easy, and if you're upgrading from a legacy '04' Sea Tel TV antenna, Sea Tel 80 TV will slot right in. Other features such as the advanced programmable LNB and integrated DVB-S2 tuner for reception and identification of DVB-S2 and DVB-S satellite broadcasts ensure that when you choose the Sea Tel 80 TV, you get one of the most convenient, yet advanced maritime TV solutions available today. Direct TV capability in SD
- V SAT
  - Sailor V600 is small but perfectly formed and the most advanced 60 cm class Ku-band antenna available today. It offers unmatched reliability and link stability on a global basis, opening the world of maritime broadband on VSAT to a wider range of vessels

## Navionics Specification

---

### Wheelhouse:

- 24" Multi-Function Display  
A full glass screen (without frame). Monitors and controls all driver information including engine data, warnings, and electronic features in one place
- Plotter  
GPSMAP 8624 large-format multi-function display featuring 24" full HD screen with touch control
- Grid Garmin Remote Input Device (dashboard/seat armrest)  
Full control of compatible chartplotter
- Radar  
Garmin GMR Fantom 54 solid-state radar with 50 W of power uses MotionScope technology to detect and highlight moving targets in different colors to show if they are moving away or approaching
- GPS  
Built to take advantage of the GLONASS system/constellation of satellites as well as standard GPS
- Gyro/Autopilot Sensor  
CCU Reactor 40 Gyro/Autopilot- Reactor CCU is the brain of the Reactor 40 autopilot system, containing sensory equipment used to determine heading and rate of turn
- Volvo Penta Dynamic Positioning Antenna  
Automatically holds boat's heading and keeps it within a very limited area
- Furuno VHF DSC Class A - IMO FM8900 S  
Semi-duplex 25-watt VHF radiotelephone with built-in Class A DSC and CH70 watch receiver
- Furuno SSB HF/MF GMDSS Class A Wheelmark Approved IMO
- AIS800- 5 watts of transmit power
- Sounder  
GSD25 1Kw Chirp Clearvu-Side-Vu- Premium sonar module
- Airmar M265LH
- Triducer Pass Plast DST800
- Triducer Panoptox PS51-TH Front Vu
- GWind & GND10 Black Box
- Furuno Navtex NX700  
Dual-channel receiver for SOLAS ships complying with new NAVTEX performance standard
- BNWAS  
Main Panel & Process Unite BR-510/520-E-10. Include: Main Alarm Panel BR-510, Processo Unit BR-520, Cable Assembly 10 m BR-510/BR-520  
Alarm Panel BR-540 in crewmess  
Alarm Panel BR-540 in captain's cabin
- Intercom System Phonotech CIS 3100 Phontech
